## How does it work?

A fun casino works best if your wedding breakfast concludes towards the end of the afternoon and there is a little time prior to and during your evening guests arrival.. The tables will fill the gap and provide a fun form of entertainment for your day time & early evening arrivals to enjoy. The majority of brides and grooms hire fun casino tables to entertain their invited guests during this time on the day.

We strongly suggest the casino comes to a close between 8.00-9.00pm in time for the formalities of cake cutting, first dance and evening dining.

Casino tables are also a great idea for all of your families and closest friends to join together to enjoy and experience the thrills and excitement of an authentic casino experience late afternoon early evening.

The tables are opened and the fun begins... The croupiers will deal the requested games and teach your guests the rules of play and how to beat the dealer. Prizes are then awarded to the guests who have the most chips at the close of play and could be awarded by the bride and groom with the help of the band/D.J.
